Register by 16 January 2015 for Early Bird Discounts!
Things are on the boil as they say with economic woes, cyber threats, terrorism, climate change, science & techno mantras, social media, increasing risk profile and dynamic rules and regulations. The forces of change are coming together to coerce the insurance industry to reinvent itself for survival, profitability, growth and sustainability. The expectations upon CEOs are high from regulators, shareholders and users, and CEOs themselves. Only the fittest and most versatile who can roll up his sleeves and get dirty will triumph.

So this CEO Summit, organised by Asia Insurance Review & The Geneva Association, the global think tank of the insurance industry, poses the real challenge for CEOs to get beyond the numbers and management codes to make a difference in the insurance business and break new ground. It will look at the critical success factors needed to face the challenges of science & technology, regulations, customer centricity, ageing population with attendant healthcare costs, and evolving risk exposures head on. It will also pave the way to work as partners with the various stakeholders – intermediaries, clients and their risk managers, supervisors and regulators, competitors and reinsurers.

Background of the CEO Summit

The CEO Summit – launched in 2001 by Asia Insurance Review together with the global think-tank of the insurance industry, The Geneva Association – was aimed at giving CEOs in Asia a much needed platform to meet and discuss hot issues of the day in the pursuit to become world-class players. Over the last 15 years, this need has become more critical and with the CEOs coming into their own, the Summit has become a forum for very open discussions and is actively supported by the International Insurance Society as well.

The Asia CEO Insurance Summit has come to be regarded as the leading insurance event in the AIR series of conferences, bringing together leaders in the market including regulators and CEOs from regional as well as domestic and global companies. Some 2,000 delegates have come under the arches of the Asian CEO Summit series, supported by the International Association of Insurance Supervisors (IAIS) too.

Some of the past themes we have handled include: Priority Issues for Survival; Strategic Positioning for Success in a Liberalising Market; Eyebing World-Class Standards in Asia; Delivering on the Promise of Growth and Profitability in Asia; Creating a World-Class Management Culture For Growth and Success in Asia; A Renewed Focus on the Market and the Customer; Managing the Potential of Profits in Risks; Achieving Regional Synergies & Partnerships To Boost Competitiveness; The Coming Integration of Marketing and Sales; Doing Business in a Post Crisis World; Repositioning for the new competitive era; the Dashboard for Insurance CEOs and Turning Threats to Profits and most latterly Exploiting the Potential of the Asean Economic Community.
