**A**sia Insurance Review (AIR) as the voice of the insurance industry in Asia is very proud to host the China Rendezvous this year given the growing importance of China in the global insurance scene and in response to repeated requests for a need for an insurance networking platform in China!

Given the critical role of the local companies in the market, we will extend two complimentary invitations to each Chinese insurance company to send their reinsurance colleagues to the event.

There will be high quality simultaneous translations at the Conference to allow interactive discussions and debates.

To underscore the idea of new things happening in China, the theme is: *"Brave New Era of Reinsurance in China"* with a focus on the role of insurance and reinsurance in the Belt & Road initiative, the key to underwriting profitability, managing natural catastrophes, cyber risks, regulatory issues, governance and compliance, risk management, technology and disruption wave, Insurtech, driverless cars, and digital insurance.

There will be special focussed sessions on special RI needs of the Chinese market; a CEO Panel on "Being Customer-centric" and the Greater Bay Area. **Sign Up Now!**

**The three-day Rendezvous will start with opening cocktail on the evening of 5th and will continue with two days that feature conferencing in the morning and bilateral meetings in the afternoon to allow maximum time for learning, networking and real business to be transacted!**
